

OUR PRIORITY IS A QUALITY!

Our Canvas Prints are characterized by highest quality of the workmanship

Eco-friendly Latex Printing

Latex Printing is the latest and unique solution from HP that by using water-based latex inks allows for absolutely odorless and environmentally friendly printing.

- ✦ Reliable and prestigious brand HP
- ✦ The highest quality resulting from the latest eco-friendly technology
- ✦ 100% organic ingredients based on water
- ✦ 'Nordic Swan' certified technology
- ✦ Prints at high resolution with very high color saturation
- ✦ High resistance to abrasion and other mechanical and weather factors without the lamination need
- ✦ Odorless printouts, without toxic substances
- ✦ High versatility and complexity

3M™ MCS™ Warranty

The 3M™ MCS™ Warranty – the protection promise for your branding.

3M™ MCS™ is the first and the most extensive warranty in the advertisement market which ensures optimal maintenance of graphics during the whole period covered by warranty. When selecting products with 3M™ MCS™ warranty you are absolutely sure about graphics on interior and exterior large-format prints. You can be sure all components used for production of graphics have been designed and selected in order to obtain optimal efficiency and that they have been tested for functionality and durability. 3M™ uses its products in a wide range of climatic conditions and therefore it is able to provide reliable statements confirming their durability in all countries of the world.

Qualified Manufacturer

100% Natural Cotton Canvas

'A.BergerFineArt canvas Miro 4443-56 360g/m2'-

This canvas is designed for digital printing applications using HP latex ink sets. The material is dedicated to printing images, reproductions, graphics, etc. Deep, saturated colors give the productions touches of elegance and aesthetics.

Features:

- ✦ Does not fray
- ✦ Perfectly flat with the natural structure of the canvas
- ✦ Suitable for printing in photo quality
- ✦ A natural product 100% cotton

High-quality Pine Frames, Hanging Kit

We use high quality 20mm deep canvas stretcher bars (pine frames). Kiln dried to ensure no warping. We supply all our canvas prints with a hanging kit

Protective Coating

Your Canvas Print comes coated in an invisible liquid laminate ART Verniks for enhanced UV protection and to guard against scuffs and scrapes. Laminate does not emit any smells.

High Quality Finishing

Our quality canvas prints are hand-stretched and carefully checked to ensure the highest standards and attention to detail.
